SUMMARY

Senior Full Stack Software Engineer with **5+ years** of experience building scalable web applications, enterprise SaaS platforms, analytics systems, and distributed backend services. Deep expertise in **React.js, Next.js, Node.js, NestJS, TypeScript, PostgreSQL**, and **AWS**. Known for writing maintainable, well-tested code and shipping high-quality products in agile, cross-functional teams.

EXPERIENCE

- Incubyte
- Jan 2025 – Present
- Software Craftsperson (SDE-2) · Remote, Pune
- Built production features across a React.js + NestJS + PostgreSQL platform — review workflows, analytics dashboards, and Google Business Profile integrations
  - Strengthened release quality through unit, integration, and E2E testing using **Vitest** and **Supertest**, driving measurable coverage gains
  - Hardened observability via **Datadog** monitoring dashboards and CI/CD pipeline improvements, boosting release stability
  - Led accessibility improvements across key user flows, reducing WCAG compliance gaps
  - Collaborated with product, design, and QA in agile sprints to deliver features reliably
- React.js · Next.js · NestJS · TypeScript · PostgreSQL · Drizzle ORM · Redis · AWS · Docker · Vitest · Supertest

- Lumel Technologies
- Jan 2022 – Dec 2024
- Product Developer → Senior Product Developer · Hybrid, Chennai
- Architected enterprise BI and analytics platform features with complex visualizations used by large-scale clients
  - Improved SQL query performance by ~40%** through indexing strategies, query rewrites, and caching — directly reducing dashboard load times
  - Built a reusable UI component library and high-performance data grids using **React.js** and **AG Grid**, accelerating feature development
  - Eliminated frontend rendering bottlenecks via virtualization, lazy loading, memoization, and scalable state management
  - Led frontend architecture decisions, code review standards, and testing initiatives using **Jest** and **Storybook**
- React.js · TypeScript · Node.js · SQL · Redis · AG Grid · Jest · Storybook

- Visual BI Solutions
- Mar 2021 – Dec 2021
- BI Developer Intern & Trainee · Remote, Chennai
- Developed React.js dashboards and **D3.js**-based analytical visualizations for business reporting platforms
  - Improved frontend responsiveness and rendering performance for data-intensive dashboards
  - Contributed to CI/CD workflows and participated in agile sprint-based delivery processes
- React.js · D3.js · JavaScript · SQL · CI/CD
